## **Budding Adult Golfers Encouraged to Go 4 Green**

An exciting new golf development initiative aimed at bringing complete beginners into the game of golf has been launched at local Golf Complex, the 3 Hammers in Coven.

Unveiled earlier this year by the Staffordshire County Golf Partnership the Go 4 Green campaign introduces golf as a sporting option to new adult golfers, with the overall objective of getting more people playing golf and overall golf club membership in the county.

Consisting of a 4 week course of group golf lessons, Go 4 Green is coached by PGA Golf Professionals at the 3 Hammers Golf Complex with all equipment provided and is great value at just £20 per person. Go 4 Green is only available at GolfMark or Rangemark accredited golfing venues which are at the forefront of developing the game, of which the 3 Hammers is the only one in the region.

PGA Golf Professional Andy Proudman from the 3 Hammers said "This is perfect opportunity for anyone considering taking up golf. It's an excellent way to meet new people, get fit and learn a new sport". At just £20 per person it's also superb value for money".

Winter weather is not an issue is ideal for beginner golfers at the 3 Hammers with its many indoor and outdoor learn to play facilities including an indoor putting green, 10,000sqft Learn 2 Play Academy, indoor golf performance studio and undercover driving range. Courses start in January 2011.

**Please call Golf Reception on 01902 790428 for further details.**
